*One of the challenges we sometimes face when selling a home is mold and the removal of it in attics, basements etc. Before finding Steri-Mobile I dealt with other companies who were outrageously priced (playing on the mold fear factor) and they never did the job right (sanding the beams does not work!). **Steri Mobile has a completely different method for mold removal and they are very reasonably priced**, they do not take advantage of the scariness of the situation. Always extremely pleasant and accommodating, my clients have loved them, and best of all, the mold has never come back!*
